# MOHAVE COUNTY MINER

\$3.00 a Year

## OUR MINERAL WEALTH

OFFICIAL PAPER OF MOHAVE COUNTY

Vol. XXXVIII.

Kingman, Arizona, Saturday, August 7, 1920.

No. 41.

### MOHAVE COUNTY SECOND ANNUAL RODEO HAS EARMARKS OF BIG SHOW

Kingman's Second Annual Rodeo, September 3, 4, 5 and 6 will eclipse anything of the kind ever pulled off in Kingman. With purses running close to \$4,000, and another thousand spent on other features of entertainment, and with some of the best riders and ropers of the west coming here, the show cannot help being a good one.

M. G. Wagner and his assistant, Lee Robinson, have been working hard the past few days getting things in shape.

Lee Robinson returned Wednesday from Flagstaff where he went to cut out 20 horses out of 40, which were at the Flagstaff show. They will be shipped here about the 25th. So we will see some ponies that can put a hump in their backs.

Word has been received from Chub Morgan, Cheyenne Kayser and Lucas Warner that they will be here after some of the big purses that are being offered and L. B. Maxwell is figuring on bringing a string of relay horses. Tex Parker, of Los Angeles, has also written that he will be on deck.

The contests will consist of riding, roping and races. The prizes range from \$500 to \$25 and in many of the events the first money runs higher than at the Flagstaff Rodeo on the Fourth.

The K. of P. Band has been engaged for the occasion and there will be dances and other forms of amusement at night.

I. R. Bartholomew, secretary, will be glad to answer any questions addressed to him and receive entrance applications. J. M. Gates is treasurer.

Come on cowboy, she's going to be a dinger.

### CROWTHER GOES WILL HALLORAN NOW MGR. KINGMAN CON.

H. M. Crowther, who recently resigned as general manager of the Kingman Consolidated, left Tuesday for Los Angeles where he will join his family in a vacation extending over several months. They will take a trip to the Yosemite and Lake Tahoe in the near future after which they will take a place near Los Angeles. Mr. Crowther has been pretty busy the past 4 1-2 years superintending the work at the mine, and feels that he has a rest coming.

Later he expects to give some time to several inventions for which he has secured patents, as well as further work along this line.

Will Halloran, former superintendent of the Kingman Consolidated, succeeds Mr. Crowther as general manager. Mr. Halloran is a young man with considerable experience and just before coming here operated the Copper Mines, Inc., of Ely, Nevada. Prior to that he was with the Butte Superior and the North Butte, two large copper properties at Butte, Montana.

Robert Linton, consulting engineer and director of the Kingman Consolidated, spent several days here last week, later returning to Butte. He is president of the North Butte Copper Company.

### RETURNS FROM FISHING TRIP ON WHITE RIVER NEAR COOLEY

Rev. Thomas Dodd and H. L. McCann returned Tuesday from a fishing trip near Cooley. They report a very pleasant time and the two weeks they spent fishing in the White River got very good results, they report. There was lots of rain up there and the roads were poor in many places.

They say that no one knows Arizona until he has seen the country surrounding Cooley. The scenery with the hills and great pine trees is immense.

The little town of Cooley itself is strictly modern lumber camp, with conveniences that were unknown in lumber camps of former years.

### BERDOO SHUT OUT BY KINGMAN "WILDCATS"

The "Wildcats" played their first shut-out game of the season last Sunday when, in seven innings they took San Bernardino's measure for 8 runs and gave them nothing. The game was called in the seventh so the Berdoo boys would be able to make connections with No. 1, at 4 o'clock.

The feature of the game was "Hook" Smith's pitching, with Price receiving. He allowed the visitors but one hit and in the seven innings struck out 11 men. If the game had gone the full nine innings he would have had his 15 or 16 strikeouts as he was going good when the game was called. Price understands Smith and has done wonders in steadying him down.

The "Wildcats" were hitting strong and lined out 11 hits during the seven innings, though contrary to the usual thing, most of them were singles. Price and George each got a three bagger being the only ones to hit more than a single. Robinson, McMillan and Price each got two singles and Bale, Knorr and Hammerslough each got one.

Though the outfield did not get much to do, George handled the only one that came his way and threw a man out at home from right field, the hitter getting to the first sack only.

Robinson at first got everything that was thrown his way as is generally the case. Hammerslough played almost a perfect game at short and started one successful double to Bale to Robinson. Hayes and Bale also played without errors, giving the entire Kingman team an errorless game. Berdoo had but two errors.

Hauser twirled a good game for the visitors and had he had support it would have made an interesting contest. He had control and a spit ball that had a wicked twist.

Next Sunday the "Wildcats" go to Winslow and the following Sunday to Flagstaff. Both of these games should be fast. Last Sunday Flagstaff played a twelve inning game with the Winslow team with a final score of 4 to 5. Both these games should be well worth seeing.

Following is the box score of last Sunday's game as kept by scorekeeper Rosenberg:

SAN BERNARDINO										
	AB	R	H	PO	A	E				
Ralston, cf	3	0	0	1	0	0				
Nuckles, c	3	0	0	7	2	0				
Kingston, 1b	3	0	0	4	0	0				
Phillips, 3b	3	0	0	3	1	1				
Gillispie, lf	2	0	0	2	2	0				
Brown, rf	1	0	0	0	0	0				
Cook, ss	2	0	1	0	1	1				
Hauser, p	2	0	0	0	1	0				
Holmes, 2b	1	0	0	1	2	0				
	20	0	1	18	9	2				
KINGMAN										
	AB	R	H	PO	A	E				
Bale, 2b	3	2	1	2	1	0				
George, rf	3	1	1	0	1	0				
Robinson, 1b	4	1	2	6	0	0				
Price, c	4	0	3	11	2	0				
Hayes, 3b	3	0	0	0	1	0				
Knorr, lf	3	2	1	0	0	0				
McMillan, cf	3	1	2	0	0	0				
Hammerslough, ss	3	0	1	2	2	0				
Smith, p	2	1	0	0	2	0				
	28	8	11	21	8	0				

Score by innings: 1 2 3 4 5 6 7

San Bernardino 0 0 0 0 0 0 x—0

Kingman 1 1 0 0 6 0 x—8

Game called at end of 7th to permit San Bernardino to catch train.

Three base hits, George, Price; sacrifice hits, George; stolen bases, Bale, George, Robinson, Price, Knorr (2), McMillan, Hammerslough; double play, Hammerslough to Bale to Robinson; bases on balls, off Smith 3, off Hauser 2; struck out by Smith 11, by Hauser 6; wild pitch Hauser (2).

### INJURED IN MINE

A miner by the name of Nair was badly hurt by a falling timber at the Dardanelles, near Chloride. He was cut badly in the temple. Twelve stitches were taken and it is thought there will be no permanent injury. The accident occurred Tuesday morning.

### RECEIVERSHIP IN GAR-BUTT-SCHUYLKILL CASE

In the matter of the application of Frank A. Garbutt for a receivership for the Schuykill Mining company, which was heard in the superior court before Judge Bollinger last week Friday and Saturday, the court granted the petition and appointed H. E. Rudisill as receiver. Mr. Garbutt has also brought suit against the company for foreclosure of mortgage, which will come before the superior court next month.

The Schuykill Mining company has been operating the Tennessee and Schuykill mines, at Chloride, but the intensive operations mapped out by the management has been practically brought to a standstill by the action of the minority shareholders holding up a deal whereby the property was to be financed. Mr. Garbutt had furnished the wherewithal for the operation of the property the past several years and upon him had devolved the further financing. Having taken over the McCracken mines, upon which a large sum must be spent in development, Mr. Garbutt concluded that he would have to seek additional finances to carry on the two propositions and it is too bad that someone should throw a monkey wrench in the machinery. We feel that the difficulties of the companies will soon be straightened out and that a large force of men will soon be at work on each. Mr. Garbutt is a hustler and the properties to be developed are among the best in the state.

### KILLED IN COLLISION WITH FREIGHT TRAIN

Luis Suarez was instantly killed Thursday on the Santa Fe track between Truxton and Crozier, when a westbound freight collided with the speeder Suarez was running, and on which there were six other Mexicans. The others were bruised up some but not badly hurt.

The train had just turned a curve when it came upon the speeder, and hit it head on. Suarez was thrown against the cowcatcher and his head mashed.

An inquest held at Hackberry found he had met death by an unavoidable accident.

The remains were sent to Van Marter's Undertaking parlors.

### MRS. E. K. MAXEY PASSES TO GREAT BEYOND

Mrs. E. K. Maxey, mother of J. T. Maxey, Santa Fe agent, passed away at her home in Kingman Saturday morning. Death came following a long illness, she having suffered a paralytic stroke 6 years ago, from which she never recovered.

The funeral was held Wednesday from the Methodist Church, Rev. T. H. Dodd officiating. Interment was in the Mountain View Cemetery.

The deceased was born in Ashland, Kentucky, July 5, 1857. She later went to Kansas and in 1918, came to Kingman with her husband. She was 63 years of age when death called her. She is survived by her husband, E. K. Maxey, her son J. T. Maxey, and two daughters, Mrs. H. M. Staley, of East Las Vegas, New Mexico and Mrs. Bertha M. Salegui, of Los Angeles, California, two brothers, George W. and John Kraus and three sisters, Mrs. Josephine Geyer, Mrs. Laura E. Johnson and Mrs. Kate Teschky. She will be greatly missed by her loved ones.

### DANCE AT NEAL RANCH SATURDAY

There will be a big dance at the Neal ranch, on the Big Sandy, on the 14th, next Saturday night. It is being given by Lew Neal and Mr. Manly. Kingman music will be provided and everyone is invited. Come and have a good time.

### DANCE TO-NIGHT

Brundage and Bale have arranged for another dance to-night at the Rosetree. Dancing will start at about 9 P. M.

### PATHFINDER WESTGARD IN KINGMAN WEDNESDAY

Greater appreciation of America's playgrounds is one of the satisfying developments growing out of the pathfinder trip to A. L. Westgard, Scout for the American Automobile Association, who is laying out the longest in the world continuous auto scenic highway of 4,500 miles, traversing nine Western States and connecting eleven National Parks.

The Pathfinder will be given a big welcome by a representative Committee when he passes thru here August 11th. He is meeting with co-operation on the Pacific Coast that is surpassing the expectations of the National Park Service and the National Park to Park Highway Association.

Commercial Associations on the Pacific Coast are learning with enthusiasm of Montana's initiative in putting a surveying party to work on the fifty-mile rugged stretch across Glacier National Park, which marks the only break in an otherwise continuous system of roads, so that Congress may be advised of the approximate construction cost of this highway link. The State of Montana is paying the cost of the survey.

Preparations are nearing completion for the official dedication of the master highway of the Nation. The Official Party, including Stephen T. Mather, Director of National Parks, and officials of the National Park to Park Highway Association, will start from Denver August 25th on a sixty day tour of the wonder highway.

### ACCIDENT IN SANTA FE YARDS COSTS MAN LEG

J. C. Ware, Santa Fe brakeman, suffered an accident, which cost him a leg, Sunday morning while his train was being switched in the Santa Fe yards.

He was crossing the track in front of the engine, when in some manner, he caught his foot in the frog and the wheels of the engine caught his leg just below the knee. He was taken to a Los Angeles hospital at once, and an effort was made to save his leg, but to no avail. It was amputated Thursday.

Ware joined the Elks Lodge No. 468 in the last class that went in. He is married, his wife living at Needles.

### "CANNON BALL" BAKER BROKE OLD RECORD

"Cannonball" Baker, who is said to hold more automobile and motorcycle road records than any other driver, passed through Kingman Tuesday night on his transcontinental dash from New York to Los Angeles, a distance of 3,471 miles, in an effort to lower his own record of seven and one-half days established several years ago. This race against time is linked up with a general recruiting campaign inaugurated by the army.

Fresh from a record breaking cross-country run from New York to Chicago which he made in 26 hours and 50 minutes recently, Baker was endeavoring to break the record which he hung up over the same route several years ago. This record never has been equalled, the time having been seven days, eleven hours and fifty-two minutes. He hopes to arrive in Los Angeles six days after his start from the Eastern Metropolis, elapsed time.

In this dash across the continent, Baker serves as a dispatch runner from Lieutenant General Bullard, Commanding General of the Eastern Department, to the Commanding General of the Western Department, who will have an aide at Los Angeles to receive a sealed government message which General Bullard handed the driver in New York.

Letters urging support for the army recruiting campaign will be dropped by Baker for delivery to mayors of the various cities through which his itinerary carries him. He is being hailed at every stopping point by army officers and sportsmen.

While originally a recruiting venture, Baker's effort to lower his own record partake of the nature of a (Continued on Page 6)

### U. S. RECLAMATION DIRECTOR DAVIS TO START SURVEYS OF BOULDER CANYON

### ROAD AND HOSPITAL BONDS SOLD FRIDAY

Yesterday evening the board of supervisors concluded the sale of the Mohave county road and hospital bonds. While the price received was not what was expected when the election was held, it yet was far and away beyond that received by the other counties of the state that recently disposed of bonds and much better than the offers made for road and improvement bonds of the state of California. The price to be paid for the issue is \$371,070, which is about \$9,000 below par. The original offer was but 85% of the bond value, which offer was rejected and an agreement reached for the sale at the price above stated.

The necessity for the sale of the bonds at this time is the fact that a failure would endanger the federal aid on the roads of Mohave County in the sum of \$140,000. Mohave county needs the road work, and it also needs the hospital badly, and the board of supervisors and clerk are to be congratulated on the good work done by them in encompassing the sale. When it is realized that Yavapai county only received about \$1,100,000 for its \$1,500,000 of bond issues and Coconino, Apache, and Navajo counties also received low bids we are proud of the position occupied by this county in the bond market. Mohave county had had more consideration from the bond buyers than any of the other fellows, some of the counties not getting a single bid for their issues. California counties have met with absolute refusal of bond buyers to bid on road bond issues until at least 8% interest is guaranteed. Money is now valued at from 8 to 10 per cent in all the markets and no one is willing to tie his money up for long time account unless he gets a big bargain for it.

As soon as matters can now be straightened out Mohave county will get to work on the roads, following out the lines laid down by the U. S. bureau of roads which has established a standard for all roads built under federal aid.

### Lear Staten Leaves For The Coast

Lear Staten, former proprietor of the Rosetree, left for the coast Saturday night where he will join Mrs. Staten and Dallas, who left a few weeks ago. Mr. Staten expects to locate in Los Angeles.

The Statens were residents of Kingman for about three years and during that time made many friends here. Mr. Staten was an ardent booster for the band and helped considerably in getting up the band, which is now on the road to success.

### DIED IN KINGMAN LAST SUNDAY

Miss Emma Morrow, who came to Kingman recently from California, died here last Sunday and was laid to rest Tuesday in Mountain View Cemetery.

Miss Morrow had been an invalid all her life. She seemed as well as usual up to a few days before her death, when she suddenly became worse and passed away.

### BABY GIRL

Judging by the smile Ike Bartholomew was wearing last Wednesday morning you might have thought he had just received favorable tip on the Primary election. Upon investigation however it was found that a 9 pound baby girl had arrived at the Bartholomew home. The young lady and her mother were getting along nicely from last reports.

That the Boulder Dam project for the storage and conservation of the flood and normal waters of the Colorado river is attracting country wide attention was evidenced by the great crowd of people responding to the call of Arthur P. Davis, Director of the U. S. Reclamation Service, at San Diego last Tuesday. The call was made to get consensus of opinion regarding the furtherance of the project in the way of securing more funds to expedite the preliminary work in the canyon so that the subject may be intelligently laid before congress when that body meets next December. No estimates have as yet been made as to the cost of the project and further surveys and soundings of the river must be made to throw light on that important end of the matter.

The meeting was called to order by Director Davis and people responded from a wide area of country. The engineers of the states of Utah, Colorado, Nevada and New Mexico were there representing their respective interests, and these men were reinforced by many prominent citizens of these states. Arizona was represented by Sims Ely, personal representative of Gov. Campbell, while Mohave county was represented by Anson H. Smith, commissioner of immigration. Yuma county was represented by Col. B. F. Fry. California had a large representation on account of the varied interests of that state in the Imperial, Coachella, Blythe and other valley projects in that state, which have their origin in the life giving waters of the Colorado river. The interests of that state are widely at variance and there would be a chance for hard sectional feeling. This was (Continued on Page 12)

### SHERIFFS' OFFICE OF MOHAVE COUNTY ARRESTS GOODWIN

Gus Goodwin and his son Nelson are under arrest at Prescott, charged with making and selling bootleg. Gus had made four trips to Kingman, two in his new Premier car and two on the train, each time bringing a cargo with him, it is said.

These trips of Goodwin's were reported to Sheriff Mahoney by his deputies, whereupon Mahoney sent Deputy Imus to Prescott armed with a warrant for the arrest of Goodwin and his son. Imus met Goodwin on the streets of Prescott and made him show him where he lived, a place about 1 1-2 miles from town. Imus then went to the house accompanied by Sheriff Warren Davis and found a ten gallon still, two 350 gallon barrels, corn meal and two gallons of 50 proof moonshine.

Goodwin's case will come up in the Yavapai Superior Court and later he will be brought before the Superior Court of Mohave.

Up to a month ago Goodwin was barbering in Prescott.

### HENRY CHAPPEL AND MAY MARTIN MARRIED MONDAY

Henry F. Chappell, of Kingman, and May Martin, of Oatman, were married last Monday night by Justice of the Peace Smith. The wedding took place at the home of George Chappell.

Henry Chappell is a nephew of George Chappell, of Kingman and the bride is a sister of Mrs. Carrie Worth of Oatman.

Both are well known in the county and their many friends wish them happiness. They will make their home in Kingman.

### ST. JOHN'S CHURCH

The Rev. T. H. Dodd will conduct a brief service in the Church on Sunday morning at 10:30 o'clock. The subject of the sermon will be "The Invisible Ladder". A very cordial invitation is given to attend.
